NEW BRAUNFELS

TEXAS

Zeitung Print, New Braunfels, Texas
When ordering, always write your name and address plainly. Shipping season begins about November 15, and extends to March 10. We fill orders as soon as received if possible. Packing is done in the best manner, and we bear all cost of same.

We guarantee every tree and plant true to name, but mistakes are liable to occur. In such cases we will refund the money paid or refill the order free, but not for a greater sum than that originally received. Terms are cash with order. Money can be safely sent either by postoffice money orders, express money orders, or in a registered letter.

Transportation charges are not paid by us, but we always add extra trees and plants to partly or wholly pay the cost of same. We have the I. & G. N. and M. K. & T. railroads, and the Wells-Fargo and American express companies. Directions for marking and shipping orders should be given. If express office is different from postoffice, this should be stated on the order sheet.

Mistakes, if any are made by us, will be cheerfully adjusted, if reported.

Small trees, plants, etc., can be sent by Parcels Post, but sufficient postage must be sent with order; all larger trees and plants can be shipped much safer by Express, at low rates.

If we are out of a variety ordered, and you allow us to put in some other, we will try to give superior value, but if you prefer the money returned, please say so in your order.

Except where particular varieties are wanted, you will get the best assortment by leaving the selection, in part at least, to us.

We have no agents whatever. This book is our only salesman. Write your order in English or in German and address all letters etc.

Nurseryman

Season 1916 -- 1917

New Braunfels, Texas
GREETING

We take great pleasure in handing you our new edition of our Annual Nursery Catalog of first-grade "stuff" with complete descriptions and prices; and if you buy of me through this "Silent Salesman", I will prove to you by fair and square dealings that your confidence is not misplaced.

We keep our variety lists confined to such sorts as are best adapted to the different sections of our territory, offering only such varieties as should produce the best results under ordinary conditions.

We have a big lot of Nursery Stock this year, assuring all orders to be satisfactorily filled.

I wish to thank all my friends and customers for their liberal patronage and solicit a continuance of the same. With best wishes,

Yours very truly,

A. W. STEINBRING.

Gruss

Hiermit überreiche ich Ihnen die neue Ausgabe meines jährlichen Katalogs mit ausführlichen Beschreibungen und Preisaufgaben, und wenn Sie durch diesen "stillen Verkäufer" von mir kaufen, werde ich durch reelle und ehrenhafte Handlungseife mich Ihres Vertrauens wert zeigen.

Ich danke allen meinen werten Freunden und Kunden für ihre mir bisher zuteilgewordene liberale Freundschaft und hoffe, daß sie mich auch fernerhin mit ihren Anträgen beehren werden.

Mit besten Wünschen.

Hochachtungsvoll,

A. W. Steinbring.
Fruit Trees

Peaches

There is no other fruit that is more successfully grown in Texas than peaches, as they succeed in almost any soil. Plant from 14 to 18 feet apart each way, and give clean cultivation. Don't fail to cut trees back to about 2 to 3 feet when planted.

While there are many hundreds of varieties of peaches, in the following list will be found the cream of the lot. Date of ripening is about the average at New Braunfels.

Prices, except as noted: 4 to 5 feet, 20 cents each; $2.00 per 12; $14 per 100. 3 to 4 feet, 15 cents each; $1.50 per 12; $12 per 100. Extra selected trees, 5 to 6 feet, 25 cents each; $2.50 per 12.

FREESTONE

Victor. Earliest of all; medium size, of beautiful color and good quality.

May-Flower. A beautiful "red all over" peach, of good size and good flavor. A good bearer for so early a variety, as it ripens with or before Victor.

Japan Dwarf Blood. Bright color; tree grows not quite so tall as other varieties; sure bearer. Ripens in May.

Greensboro. A large white peach with red cheek; fine flavor. Ripens with or before Alexander. One of the best early peaches.

Alexander. Large red, of good quality. Ripens the last days of May.

Triumph. The best early yellow peach; excellent quality, sure bearer. June 5 to 15.

Bokara. Large, of good quality and bears every year; very hardy. June 1 to 10.

Honey. Medium size, the sweetest peach that grows; a good bearer. June.

Katherine. One of the finest peaches we have to ripen by the end of June; large, white with red cheek, flesh firm and of
excellent flavor; a good bearer. 25 cents per tree, $2.50 per 12; extra large trees, 50 cents each, $5.00 per 12.

Early Belle. A fine, red-cheeked peach, very large and of finest flavor; tree is a strong grower and productive. June and July.

Carman. Very large and of finest flavor; productive. Ripens June 10 to 15.

Pallas. White with red cheek, of good quality; annual bearer. June and July.

Lula Crawford. A peach much resembling "Thurber", only ripening a few days earlier. Tree also a strong grower and, can say, a sure bearer. Fruit of best quality.

Belle of Georgia. Large, white and of fine flavor; bears well. July.

Elberta. One of the best for home or market; large, yellow, fine flavor; good bearer. July 15 to 25.

Capt. Ede. A large white freestone, of good flavor. The tree is one of the strongest growers and bears well. Ripens in July.

Thurber. Large white flesh, red cheek; sure bearer. July.

Gold Drop. Large yellow, ripening just before "Elberta". A fine, good-flavored peach.

Salway. A large, yellow-fleshed peach. Ripens in August.

Stump the World. Large, white with red cheek; juicy and of fine flavor. Ripens in July.

**CLINGSTONE**

Mamie Ross. Large size, of good quality; bears well. Middle of June.

Rogers. Similar to Mamie Ross; sure bearer. Ripens in June.

Comal Cling. Large, yellow with red cheek. July.

Carpenter. A large white peach with a tinge of red; sweet and juicy; sure bearer. July.

Chilow. Large yellow, of good quality; will keep for a long time. July.

Sylphide. A white clingstone, of medium to large size, and of good quality. A good bearer. July and August.

Indian Cling. A large red-fleshed peach, very juicy. August.

Old Mixon Cling. One of the best clingstone peaches, juicy and of finest flavor; productive. August.

Weaver. A large yellow Clingstone of very good quality. Good bearer. One of the best peaches that ripen in September.

Heath Cling. A large, white peach, good quality. September.

Stinson's October. Large, white with red cheek, flesh firm and juicy. October and November.

Seedling Peaches. 4 to 6 feet, 10 cents each; $1.00 per 12.
Plums

Plants same as peaches, and give frequent cultivation. There is no other fruit that bears at as early an age as the plum; some varieties bear fruit when but one year old. Plums seem more fruitful when there are different varieties in an orchard, as they pollinate each other more perfectly.

All you want is the best, and they will be found in the following list.

Prices, except as noted: 4 to 5 feet, 20 cents each; $2.00 per 12; $16 per 100, 3 to 4 feet, 15 cents each; $1.50 per 12; $13 per 100. Extra large trees, 40 cents; $4.00 per 12.

Funk's Early (Hybrid). This is the best early plum. Red, heart-shaped, of good size, sweet and firm, very prolific; ripens middle of May. Price 30 cents each, $3.00 per 12.

McCartney (Native). Large, golden yellow color, egg-shaped, productive. May. 30 cents each, $3.00 per 12.
Wild Goose (Native). Large red, very good; good bearer. June.

Happiness (Hybrid). A new plum. The fruit is very large, color glowing red, and in quality it is rarely equaled. It is really the finest plum I ever saw. Tree is a good grower and very productive.

Climax (Hybrid). Very large and of fine flavor; beautifully colored. June.

Hale (Japan). Rapid growing tree. Fruit large, very sweet; ripens in June.

Excelsior (Hybrid). A variety which has proven its value in nearly all sections of the South. Fruit of good size; round, reddish purple; flesh juicy, melting, and sweet. Does remarkably well.

Botan (Japan). Large, yellowish green overspread with red; sweet. Plant some Botan plum trees. June.

Gonzales (Hybrid). A large red plum, sweet and juicy; tree is a good grower and very prolific; should be in every orchard; one of the very best. Middle of June.

Red June (Japan). Large red, flesh yellow, good quality, productive. June.

Nona (Native). Large, bright red color, juicy and of good quality. June.

Doris (Hybrid). A strong upright grower and a good bearer. Fruit as large as a Botan, but of darker color. June.

Shiro (Hybrid). Fruit large, yellow, egg-shaped; will keep for a long time; bears enormous crops. June.

Sultan (Japan). Large, purplish-red. Flesh wine-colored; of good quality. June and July.

Normand (Japan). Large, of beautiful golden color. Ripe June and July.

Wickson (Japan). Very large, dark red color; tree of upright growth and very productive; should be in every orchard. July.

Ohio Prolific (Native). Medium, red; sure to bear every year. June and July.

Burbank (Japan). Large, roundish, flesh yellow, sweet when fully ripe; sure bearer. Don’t fail to plant it. June and July.

Indian Chief (Native). Medium to large, red, enormous bearer. July.

Robinson (Native). Of medium size, color dark red, sure bearer. July.

Bartlett (Japan). A large crimson plum. Has exactly the quality and flavor of the Bartlett pear.

Kelsey (Japan). Very large, of greenish yellow color; finest quality; tree blooms early. August.
Satsuma (Japan). Large, with blood-red flesh and of good quality. Tree grows large and bears well.

Golden Beauty (Native). Medium size; yellow, colors long before ripe; tree blooms late. July and August.

**Pears**

This list of select varieties is well tested and proved valuable throughout the greatest section of the South.

Price: Two-year-old trees, 4 to 6 feet, 25 cents each; $2.50 per 12; $20.00 per 100. 3 to 4 feet, 20 cents each, $2.00 per 12; $15.00 per 100.

**Bartlett.** The old standard. Large yellow, flesh melting and juicy. Ripens in August.

**Garber.** Fruit resembles Kieffer in size and color. Tree most vigorous and good bearer. Ripens a month before Kieffer.

**Kieffer.** Fruit large to very large, bright yellow with red cheek, and of good quality when fully ripe. Tree vigorous, rarely fails to bear a full crop. One of the best.

**LeConte.** A most rapid grower, and an annual bearer of large, pale yellow, bell-shaped fruit of best quality. The pear that leads its way to the South. July and August.

**Smith's Hybrid.** In growth similar to LeConte; fruit larger, very juicy. Ripens just before LeConte.

**Apples**

The growing of apples is fast assuming commercial importance in some parts of our State. Apple trees, the same as pear trees, should not be planted on land where there is root rot, as such soil will cause the trees to die out. If you think that your land may be adapted to apple culture, you should plant a few, or a dozen trees. We have tested many varieties of apples. The following is a collection of those that have proved valuable here.

Prices: Heavy trees, 4 to 6 feet, budded or grafted on first-class seedlings, 20 cents each; $2.00 per 12.
Red June. Medium to large, dark red, mealy and high flavored. June and July.

Yellow Transparent. Medium size, of yellow color. July.

Early Harvest. Large, yellow, tender and juicy. July.

Cooper’s Early White. Large, round, pale yellow with faint blush, flesh white, crisp and sprightly. The trees begin to bear at two years old.

Yellow Horse. Large, yellow with blush, a good summer apple, very prolific. July.

Wealthy. Fine quality, good all purpose apple, light yellow with red, tender and juicy, very productive. August.

Missouri Pippin. A fine apple of good size, pale yellow with red blush, prolific bearer. August and September.

Winesap. Medium size, flesh red and of good quality.

Ben Davis. Large, red on yellowish ground; very valuable.

Transcendent Crab Apple. Worth all other crabs put together. Yellow striped with red. Tree a strong, healthy grower and an annual bearer. Ripens first part of July.

---

**Apricots**

The apricot seems to do best if planted where they will not be cultivated, except for the first year or two. The fruit has a fine, rich flavor, and a few trees should be planted in the back yard or some corner about the place. We can recommend the two varieties which we here offer.

Die Aprikose scheint am besten zu gedeihen, wenn sie nur im ersten u. vielleicht auch im zweiten Jahre cultiviert wird, dann aber nicht mehr. Die Frucht hat ein feines, reiches Aroma, und einige Bäume sollten im Hof oder in irgend einer Ecke gepflanzt werden. Die nachstehend offerierten zwei Sorten können wir empfehlen.

Price: 5 to 6 feet, 30 cents each; $3.00 per 12. 3 to 4 feet, 20 cents each; $2.00 per 12.

Moorpark. Large, orange yellow with red cheek; sweet and juicy. June.

Cluster. Fruit medium, yellow, good quality. Tree blooms late. June.

---

**Japan Persimmons**

Some of these should be planted by every family. The trees bear young and are very ornamental.
Sebemilieu. einige derer SBaitme Jiflanaen; fie tragen jurtg utib fefjen fcl)r cm§. Price 30 cents each; $3.00 per 12. Hyakume. Large, orange red, very sweet, few seeds. Yemone. Fruit large, resembles a tomato, color orange yellow to red. Tauli-Nashi. Very large, yellow to red, very few seeds. Very good quality when fully ripe.

Quinces

Price: 25 cents each; $2.50 per 12. The quince is only used for making all kinds of preserves and jellies, for which it is very valuable. Die Quinittc wird nur um Einfachen und zur Herstellung von Gelee benutzt und ift jür diesen Zweck ausgezeichnet.

Meech. Fruit large, yellow and of fine flavor. Orange. Large, roundish, bright yellow.

Mulberries

Every farm should have a few mulberry trees about the back yard and where the chickens run. They make a quick shade and are long-lived. Im Soße und wo die Günnen herumlaufen, sollten auf jeder Farm Maulbeerbäume gepflanzt werden; fie geben jchnell Schatten und werden alt.

Prices: 5 to 6 feet, 20 cents each, $2.00 per 12. 6 to 8 feet, 30 cents each; $3.00 per 12.

Hick's Everbearing. Tree of vigorous growth, and produces immense quantities of fruit for over two months.

Black English. A fine, large mulberry. Tree a rapid grower and good bearer.

New American. A quick-growing tree, very productive; the berries are very large, black.

Russian. Mostly planted as a shade tree, which is hardy and long-lived; the fruit is small. Some trees do not bear fruit at all. 8 to 10 feet, fine trees, 60 cents each, $6.00 per 12; other sizes as above.

Cherries.

The cherry is not recommended for South Texas, but succeeds well in some portions of the State, especially towards the Panhandle.
For Southern gardens, trees should not be planted, but in certain parts of the States, especially those near the coast, they are grown.  
Price: 30 cents each; $3.00 per 12.

**Early Richmond.** Medium, red, an old standard variety;  
**English Morello.** Another popular variety. Ripens later.

---

**Figs**

Figs should be planted more extensively. Ripe fruit can be had almost every day from June till frost, provided there is enough moisture to keep the trees growing. Following are the hardiest and best varieties for general cultivation.

- *Ficus carica.* Should be planted in more extensive areas. Ripe fruit can be had almost every day from June till frost, provided there is enough moisture to keep the trees growing.

  Price: 3 to 4 feet, 20 cents each; $2.00 per 12; $2.00 per 12; $15.00 per 100.
  2 to 3 feet, 15 cents each; $1.50 per 12; $10.00 per 100.

- **Magnolia.** Fruit large, yellowish-white, productive. Very sweet.

- **Brown Turkey.** Very hardy and one of the best bearers we have. Fruit brown, excellent quality.

- **Celestial.** A small blue fig, very productive. Very sweet.

- **Brunswick.** The large purple fig. Tree a strong grower.

---

**Pecans**

No class of trees is growing in popularity as fast as are pecan or other nut trees. Pecans are much harder to bud or graft successfully than other trees, so have to be sold at a higher price.

- *Carya illinoensis.* This tree grows much faster in popularity than pecans. It is much more difficult to root than Pecan trees, and requires a longer period of time before it will bear.

  Price: 3 to 4 feet, 20 cents each; $2.00 per 12; $2.00 per 12; $15.00 per 100.
  2 to 3 feet, 15 cents each; $1.50 per 12; $10.00 per 100.

- **Stuart.** Very large; shell thin; tree a rapid grower and an early bearer.

- **Schley.** Large size; shell thin; flavor rich. Good grower and prolific.

- **Frotscher.** Very large; meat can be taken out whole, and is of fine quality.
Van Deman. Large, 45 to 50 to the pound; shell thin; quality good.

Seedling Pecans. Grown from fine nuts. 2 to 3 feet, 25 cents each, $2.50 per 12. 4 to 5 feet, 50 cents each, $5.00 per 12.

Japan Walnut

These come into bearing early. Excepting pecans, this is perhaps the finest nut that grows. The tree has an abundance of fibrous roots, therefore transplants readily. Price, 3 to 4 feet, 50 cents each; 2 to 3 feet, 35 cents each.

Almonds

Price: 5 to 6 feet, 25 cents; $2.50 per 12.
The tree blooms very early, so crops are often destroyed by late frosts.

Sultana. A standard variety, strong upright grower.

Medina. Originated in Medina County; said to be a good bearer, as it blooms later than the other varieties.

Pomegranates

Price: 20 cents each. $2.00 per 12.

Large Sweet. Fruit very delicious; different from the common sour kind. A good bearer.

Oranges

Satsuma. Hardyest of the sweet orange family, fruit reddish yellow, almost seedless, very sweet, an abundant bearer. Trees 2 to 3 feet, 50 cents each.

Otaheite. An extra fine pot plant with glossy leaves. The
Wonder Lemon.

Little bright oranges will hang on the tree for nearly a year after they are ripe. 25 cents each.

Lemons

Wonder (or Ponderosa). The largest edible lemon grown, useful and ornamental, an everbearing variety. Price 25 cents each.

Grapes

The grape succeeds in almost any soil, therefore it should be planted more extensively than it is. We offer for sale only a few of the best, such as we can recommend.

Der Weintrauben gedeihst gut in jedem Boden und sollte deshalb in ausgedehnterem Maße gepflanzt werden als bisher. Wir offerieren einige der besten Sorten; solche, die wir empfehlen können.

Price: 10 cents each; $1.00 per 12; $7.50 per 100.

Concord. Large bunches and berries, very good for table and market, blue-black.

Delaware. Medium berries, very fine; table and market; clear red.

Brighton. A fine large red grape for table, market, or wine.
Martha. Large white, very good table and market sort.

Moore's Early. Large, black, productive, very early, June.

Herbemont. Fruit of medium size, large clusters, very productive, purple.

Niagara. Large, amber-white, good quality.

Black Spanish. One of the best grapes, berries of medium size, good bearer. Extra heavy two- and three-year-old plants 20 cents, $2.00 per 12. Big lot of strong plants at price of other varieties.

Catawba. Clusters and berry large, dark red, juicy; fine for market, table and wine.

Muscadine Grapes. The Muscadine type of grapes is at home in the South; are rank growers and heavy bearers. They are desirable for jelly, preserves or wine. We have several varieties, all black. 25 cents each. $2.50 per 12.

---

Strawberries

We can supply these at 20 cents per 12, $1 per 100, in the following three best varieties: Klondyke, Excelsior and Lady Thompson.

---

Berries

Every farm or city garden should contain a patch of blackberries or dewberries. They bear one year after they are planted, and annually thereafter.

Jeder Farm- oder Stadtgarten sollte ein Beet Brombeeren enthalten. Sie tragen ein Jahr nachdem sie gepflanzt sind, und von da an jedes Jahr.

Austin Mayes Dewberry. Fruit very large and fine-flavored; produces a full crop each year. Ripens in May. 50c per 12, $2.50 per 100.

McDonald Berry. This is a new berry, a cross between the blackberry and the dewberry. Fruit is large, juicy and of the very best quality. Hardest, most vigorous and most productive of all berries here. Earliest of all, ripening first of April. Price 50 cents per 12, $2.50 per 100.

Haupt Blackberry. An early, large, sweet berry. Very productive. 60 cents per 12, $4.00 per 100.
Shade and Ornamental Trees

The “Texas” Umbrella China.

Nothing adds so much to the appearance of the home as well-cared-for shade trees or ornamentals.

**Everblooming Roses**

"The Queen of Flowers"

---

For outdoor planting we consider these the cream of the world. They will bloom from spring until frost if given a little attention to keep them growing. We sell strong bushes, grown in the field. All have bloomed, and will commence blooming early in spring after planting.

The following varieties are the best and finest obtainable.

All are hardy outdoors. Trim off about one-half of the wood when planted.

Die folgenden Sorten sind die besten und feinsten, die man bekomen kann. Alle halten unseren Winter ohne Schäden aus. Man schneide um ungefähr die Hälfte zurück beim Pflanzen.

Prices, except as noted: Extra strong one- and two-year-old plants, 25 cents each; $2.50 per 12. Strong one-year-old, 20 cents each; $2.00 per 12. The 30 cents varieties at $3.00 per 12.

Planting, Cultivating, etc.

If trees cannot be planted immediately when received they should be unpacked and set in a trench; cover roots with mellow earth and thoroughly wet. If trees are frozen when received, the whole bundle should be laid in a trench and covered with earth, or placed in a cool cellar until the weather moderates.

To plant trees dig holes large enough to hold roots in their natural position. When a plow can be used the holes are easily dug by throwing out two or three furrows, and shoveling out the dirt where the tree are to stand. Set the tree so that it will stand the same depth as it did in the nursery, then fill in soil to cover roots, and pour in a bucket or two of water. When this is soaked into the ground, then fill in the balance of soil, and then cut the tree back to about 2 to 4 feet, according to size and age of tree.

Cultivating.—Frequent and thorough cultivation, especially for the first year or two, is almost necessary.

To prevent rabbits from injuring young trees, would suggest that either corn stalks or old newspapers be tied around each tree.

Selection of Varieties.—Except where particular varieties are wanted, the best assortment is secured by leaving the selection to us, stating the general character of soil, the desired time of ripening, etc.

We buy seedling peach seed, or all small seeds. Write us for prices. We don’t want the very large seed.

Mr. A. W. Steinbring, New Braunfels, Texas.
Dear Sir:— I received my roses in fine condition; many thanks for the nice plants you sent.
Yours truly, D. S.

Montgomery, Texas, January 2, 1916.
Thank you very much Mr. Steinbring for your prompt attention to my orders, also for your extreme generosity in the matter of the plants you sent gratis. The plants are most excellent.
Very truly, (Miss) F. N.

Verdi, Texas, February 2, 1916.
A. W. Steinbring, New Braunfels, Texas.
Dear Sir:— The rose bushes I ordered of you recently, came very promptly and have pleased me far beyond my expectation. I wish to thank you very much for the extras. The plants look fresh, I am sure they will all grow. Again thanking you and wishing God's blessing on your business for your honest dealings. Respectfully, (Miss) R. B.

Benavides, Texas, February 7, 1916.
A. W. Steinbring, New Braunfels, Texas.
Dear Sir:— It is with pleasure that I write to thank you for the plants ordered from you. They arrived in splendid condition and are far superior to what I expected for the money paid for them. Also allow me to thank you for the extras you were kind enough to send and rest assured that hereafter I shall with pleasure recommend your plants etc. Thanking you again, I am,

Your sincerely, D. T.

Laredo, Texas, December 4, 1915.
Mr. A. W. Steinbring.
Dear Sir:— Roses reached here as ordered and in good condition,
also the trees; they are fine. My friends are very satisfied with their orders. I thank you very much for your good attention, and hoping to send you another order. Yours respectfully, Mrs. E. M.

Pontotoc, Texas, December 28, 1915.

Mr. A. W. Steinbring, New Braunfels, Texas.

Dear Sir:— Please send me one of your catalogues. Also send one to ———. The peach trees which I bought from you two years past, proved to be extra good; some of them had a good crop of fruit this year. I also had some pears on the pear trees this year.

Respectfully, W. H. K.

Fredericksburg, Texas, December 7, 1915.

Mr. A. W. Steinbring, New Braunfels, Texas.

Enclosed find —— for which please send me by Express ——. I had ordered a bill of trees last year from you, and only 2 trees died, out of 72 trees, which was due mostly to dry summer. They were the best set of trees that I ever planted. Yours very truly, A. A. S.

San Antonio, Texas, September 27, 1916.

Mr. Steinbring, New Braunfels.

Dear Sir:— Please send me your catalog. The trees I got from you last February are doing fine. Respectfully, H. S.

D’Hanis, Texas, November 5, 1915.

A. W. Steinbring.

Dear Sir:— Received the plants, they are worth more than what I gave for them, many thanks for same. I must tell you that our orchard is doing wonders, got the trees from you January 16, 1915. Never lost one until this summer, the cutting ants got busy. No one will believe that the trees are planted this year. Will order your seeds in January to start for early spring, and we will order trees and roses after the frost.

Thanking you again, Respectfully yours, (Mrs.) F. J. R.

Mr. A. W. Steinbring.

Dear Sir:— Wish to get———. My roses are growing nice, except two and my climbing American rose is the prettiest of all. My garden seeds from you, Tomatoes and Peppers, are wonders. I am more than pleased. Respectfully yours, Mrs. F. J. R.
